Commercial Rebates

AIR CONDITIONING Water & Air-Cooled Chillers

QUALIFICATIONS/GUIDELINES

All projects shall comply with the General Qualifications/Guidelines to qualify for a rebate. Please refer to the General Qualifications/Guidelines document for further details.

1. A pre-inspection must be performed by Austin Energy before the new equipment is installed.
2. The rebate application must be submitted **before** the new unit is installed. It must be accompanied by the **manufacturer’s rating information based on AHRI Standards** and warranty information. (contact AE for estimate of rebate)
3. A separate rebate application will need to be submitted for each unique chiller.
4. After receiving and reviewing the application, an Austin Energy Representative will schedule an inspection to verify the installation and determine the final rebate amount.
5. Back-up or redundant systems are not eligible for rebates.
6. **The code baseline for qualifying equipment is the IECC 2009 Energy Code.**
7. **The energy code EER and IPLV are as seen below:**
