AUSTIN ENERGY AIR CONDITIONER REBATE PROGRAM Request for Incentive Payment

- ◆ Incentive payments will be made to the purchaser of the qualifying equipment after verification of the efficiency and on-site inspection by an Austin Energy representative, to assure compliance with program guidelines. In cases of dispute, the owner of the installation address will be given the incentive.
- ◆ To receive the air conditioning or heat pump incentive, the unit must meet both the SEER (Seasonal Energy Efficiency Ratio) and the EER (Energy Efficiency Ratio) minimum requirement.
- ◆ The process from Austin Energy's receipt until payment, takes 4 to 6 weeks. Incomplete or incorrect information will delay this process and may cause your Request for Incentive Payment to be denied.
- ◆ Mechanical inspections for all installations requiring full permits must be arranged through the Building Inspection Division at 974-6406. HVAC equipment must be installed in accordance with the City of Austin's Energy/Mechanical/Electrical Codes.
- ◆ Commercial Customers with A/C units of 5.0 or less tons will qualify regardless of Electric Rate Class.
- ◆ For air duct sealing, duct replacement, attic insulation, or home sealing, we recommend rebates through the Home Performance with Energy Star Program. For Additional information, please call 482-5346 or visit www.austinenergy.com/go/rebates.
- ◆ Mail to: CITY OF AUSTIN-AUSTIN ENERGY, Attn: Rebate Processing Section, 721 Barton Springs Rd, Austin, Tx 78704-1194 or Fax to (512)482-5373.
