

Power Saver™ Program *Saving Energy Together*

Commercial Rebates

NEMA PREMIUM® MOTOR DISCOUNT

The Power Saver - Motor Discount Program encourages the purchase and utilization of NEMA PREMIUM® MOTORS in commercial facilities served by Austin Energy. These 'premium rated' high efficiency motors reduce operating costs and are designed to replace standard grade electrical motors in most size categories. Through established area motor vendors, Austin Energy is providing "point of purchase" incentives to the end-user to help reduce the 'upfront' purchase price of the NEMA Premium® rated motors.

Guidelines

- Point of Purchase incentives are available to Austin Energy commercial and industrial customers involved in the purchase of qualifying motors through participating area motor vendors.
- Only NEMA PREMIUM® rated motors will qualify for incentive funds.
- All qualifying motors purchased under this program must be installed in facilities served by Austin Energy. Units intended for installation outside the Austin Energy service territory are excluded from this offer.
- The Austin Energy Participating vendor will submit copies of invoices, showing the date of purchase, the size (hp) of the qualifying motor(s) sold, the type of motor(s) purchased, and the name and installation address of the customer.
- The customer purchasing a qualified motor is discounted the full face-value of the motor incentive listed in the table below. This incentive will help cover some of the higher cost associated with the purchase of NEMA Premium® motors.
- Customers **MUST** use an Austin Energy Participating Vendor listed on our web site at <http://www.austinenenergy.com/go/commercialrebates>

Participating Vendor

Hamilton Electric Works

Address

3800 Airport Blvd.

Telephone

472-2428
