

Power Saver™ Program *Saving Energy Together* **Commercial Rebates**

AIR CONDITIONING DIRECT EXPANSION – For New Construction & Retrofit Projects, PTACS, Package Units & Split Systems

All projects shall comply with the **General Qualifications/Guidelines** to qualify for a rebate. Please refer to the General Qualifications/Guidelines document for further details.

SPECIFIC QUALIFICATIONS

1. The pre-inspection is waived on all DX installations under 10 tons (multiple or single unit installs).
2. A signed rebate application must be submitted before or at the pre-inspection. In the case of an emergency installation, a signed application must be submitted no later than 30 days after the installation. It must be accompanied by the **manufacturer's rating based on AHRI Standards** and warranty information. **New Construction projects must follow new construction guidelines.**
3. All installations must comply with the City of Austin Ozone Depleting Chemical Ordinance.
4. Water-source, ground source, geothermal and water loop heat pumps shall be rated at 86°F.
5. Use Rebate Table1 for 5.5 tons & up (new construction & retrofits), Table 2 is for units under 5.5 tons (new construction & retrofits).
6. For Retrofits, both condensing unit and air handler/furnace and evaporator coil must be replaced for split system rebates.
7. Back-up or redundant systems are not eligible for rebates.
8. The removed equipment on retrofit projects cannot be re-used within the Austin Energy's service area and disposal method must be stated on rebate application.
9. **All installations require permits as mandated by the City of Austin's Development, Review and Inspection Department (974-6406).**

The Austin Energy guidelines and rebate levels are subject to change at any time, without notice.

ADDITIONAL CUSTOMER AGREEMENT CLAUSE

As a qualified Austin Energy customer, I understand that the rebate I am applying for will under no circumstances exceed 50% of the installed cost of the work. I also agree to retain all qualifying equipment at the location in which it was originally installed, identified as the "installation address" on this application. The Customer is responsible for maintaining the operational efficiency of all qualifying measures for a period of no less than five (5) years from the date of this agreement. The Customer agrees to allow an Austin Energy Representative to inspect the referenced facility for compliance with this requirement for the duration of this agreement. In consideration of this rebate, customer assigns all rights to any and all environmental attributes and or credits, including any renewable energy credits, carbon offset credits, or similar environmental credits derived from the energy conservation associated with this rebate to Austin Energy for Austin Energy's use as it may choose.
