Diamond Polished™ floors are beautiful, durable, easy-to-maintain and clean but that is just the beginning of the advantages they offer. Whether your floor is old

American Concrete Technologies experts are factory trained and approved professionals who maintain uniformly high quality standards. Our system "sands" the concrete to a smooth, lustrous finish. Using special grinding equipment, we remove 1/16" to 1/8" of the top layer of the concrete using 40 grit diamonds. Depending on your preference and the condition of the floor, the process will involve polishing with 80 grit, 150 grit, 300 grit, 400 grit and 800 grit. We can go to 1500 grit and 3000 grit if the job warrants. This unique approach leaves the concrete with a sheen without the addition of a topical finish. No topcoats, waxes or sealers are needed. Give us a call today for a free, no-obligation consultation about your next project.

Architectural Specifications: Available upon request.

*The beauty of a
Diamond Polished
Concrete Floor
is more than skin deep!*

Diamond Polished Concrete

Clay Paint

Green Planet Paints offers a clay paint with soy-based resin. Soy replaces the acrylic ingredient used in most conventional paints, which is typically derived from petrochemical sources. Natural mineral and clay-based pigments are added to the soy resin, in addition to titanium dioxide, for odor and pollution absorption.

Clay Paint is offered in both residential and commercial lines. The "boutique" line consists of forty-three colors of flat paint. The commercial line is comprised by a wider range of colors in matte, satin, and semi-gloss finishes. [Contact: [Green Planet Paints](#), Patagonia, AZ.]

Be aware of the trends you create or perpetuate.

Keep a map of your 500 mile radius in your resource library and at your desk.

Ask the sales reps questions, even the tough ones.

Educate your own staff.

Start at home, talk the walk, even if it's babysteps.

Keep a map of your 500 mile radius in your resource library and at your desk.

What designers can do!
